You've got to come now. **We've** found a huge footprint. **It's** got three claws but they **aren't** very long. The toes **haven't** been damaged but we think **we've** spotted a scar across the pad. **We'd** guess **it's** been injured in the past but **we're** sure **you'll** be able to tell us a lot more when **you've** seen it yourself.

See you soon
